#### CERTIFICATE OF INCORPORATION

##### "SOCIETIES ACT"

##### CANADA:

PROVINCE OF BRITISH COLUMBIA.

No. 3995.

I HEREBY CERTIFY that "The British Columbia Catholic Education Association" has this day been incorporated as a Society under the "Societies Act."

The locality in which the operations of the Society will be chiefly carried on is in the Province of British Columbia.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 19th day of October, 1951.

[L.S.]

S. W. TAYLOR,  
*Registrar of Companies.*

The objects of the Society are:—

(a) To recognize that: "The proper and immediate end of Christian education is to co-operate with divine grace in forming the true and perfect Christian, that is, to form according to the emphatic expression of the apostle: 'my little children, for whom I am in labour again, until Christ be formed in you.' Hence the true Christian product of Christian education is the supernatural man who thinks, judges and acts constantly in accordance with right reason illuminated by the supernatural light of the examples and teachings of Christ." (Encyclical: "Christian Education of Youth," by Pius XI.)

(b) By this Association's establishment, with a constitution in aims and objects fundamentally in accord with the United Nations Organization's statement of the divine and natural rights of children to an education, and to the prior right of parents to choose the kind of education, to strive for the practical and living application of Article 27 of the United Nations declaration of human rights, which reads as follows:—

"(i) Everyone has a right to education. Education shall be free, at least in the elementary and fundamental stages. Elementary education shall be compulsory. Technical and professional education shall be made generally available and higher education shall be equally accessible to all on the basis of merit;

"(ii) Education shall be directed to the full development of the human personality and to the strengthening of respect for human rights and fundamental freedoms; it shall promote understanding, tolerance and friendship among all nations, racial and religious groups, and shall further the activities of the United Nations for the maintenance of peace;

"(iii) Parents have a prior right to choose the kind of education that shall be given to their children":

(c) Specifically, the aim or object of this Association is to gain recognition in this Province of British Columbia of the natural and divine right of Catholic parents to have their children educated whenever possible, in their own Catholic schools and to have Catholic schools taxes levied and (or) used for educational purposes and paid by Catholics applied to the support of the schools which their children attend:

(d) In general, the objects of this Association are:—

## DEPARTMENT OF MUNICIPAL AFFAIRS

### "TOWN PLANNING ACT"

PURSUANT to the provisions of section 61 of the "Town Planning Act," being chapter 339 of the "Revised Statutes of British Columbia, 1948," as amended, His Honour the Lieutenant-Governor has been pleased to make the following regulations:—

#### VIEW ROYAL REGULATED AREA REGULATIONS

1. The regulations approved under date of July 24th, 1948, and amendments thereto, and applying to the View Royal Regulated Area defined as follows, are repealed: Commencing at the north-west corner of the Municipality of the Township of Esquimalt as defined by notice in The British Columbia Gazette under date of August 15th, 1912; thence north-easterly along the northerly boundary of said municipality and the prolongation thereof to the westerly boundary of the District Municipality of Saanich as defined in The British Columbia Gazette under date of February 22nd, 1906; thence northerly along said westerly boundary to the north-east corner of Esquimalt Land District; thence westerly along the northerly boundary of Esquimalt Land District to the easterly boundary of Thetis Lake Park as defined by notice in The British Columbia Gazette under date of April 27th, 1939; thence southerly along said easterly boundary to the north-west corner of Lot 13, Esquimalt Land District; thence south-easterly along the westerly boundary of Lot 13 to the south-east corner thereof; thence south-easterly along the shore-line of Esquimalt Harbour to the point of commencement. The following regulations are substituted therefor:—

2. The area defined in Regulation 1 is hereinafter called "the area" and shall be known as the "View Royal Regulated Area."

3. The Lieutenant-Governor in Council may appoint an Inspector for the area pursuant to the provisions of the "Civil Service Act."

4. The provisions of these regulations shall be enforced by the Inspector.

5. Nothing in these regulations shall require the removal, alteration, or abandonment of, nor prevent continuance of the use or occupancy of, a building existing on July 24th, 1948, unless in the opinion of the Inspector the building or its use constitutes a hazard to the safety and welfare of the public, or to the owners of adjacent property, or, in the opinion of the Medical Health Officer, the building or its use constitutes a menace to public health.

#### Subdivisions

6. The approving officer, as defined in the "Land Registry Act," shall not approve of a plan of subdivision that does not conform to the requirements of Regulations 7 and 8 hereof without the written consent of the Inspector, except where provision for the relaxation of said regulations is made herein.

7. No land shall be subdivided into lots or parcels for building purposes unless:—

- (a) A method of sewage-disposal satisfactory to the Medical Health Officer is possible for each lot;
- (b) Each lot in a Residence class district is at least seven thousand five hundred square feet in area and, in addition, is at least sixty feet in width and at least one hundred feet in depth, or in a Commercial or Industrial district is at least thirty feet in width and at least one hundred feet in depth. Where the area which it is proposed to subdivide is of such a shape, or the design of an adjoining subdivision is such, that in his opinion a variation from such measurements is justified, the approving officer may approve a plan showing such variation;
- (c) Each lot or parcel resulting from the subdivision abuts on a public highway along one full side of said lot;

- (d) The approving officer is satisfied that the subdivision design is suited to the configuration of the land in and about the area which it is proposed to subdivide and to the road plan of adjoining subdivisions;
- (e) All road allowances in the subdivision that, in the opinion of the approving officer, form a part or extension of the major road system are planned to permit a finished grade not exceeding seven per cent, and all other road allowances in the subdivision are planned to permit a finished grade not exceeding twelve per cent;
- (f) Road allowances are not less than the width prescribed in Schedule A hereof for the road category in which they are placed by the approving officer; and in the case of an existing road alongside the proposed subdivision which is of less width than prescribed for its category as aforesaid, the subdivision plan is designed to provide at least half the difference between the existing width and such prescribed width; provided that where highway plans or other conditions require a greater width, as indicated by the approving officer, provision for such width shall be made in a similar manner;
- (g) All road allowances are graded and gravelled and all appurtenant works done as required by the approving officer;
- (h) All structures of any kind, including fences, are removed from the road allowances;
- (i) The land is not swamp land and is not subject to intermittent or periodic flooding.

8. The subdivision of land in Rural class districts into parcels of less than two acres shall not be approved, except on the recommendation in writing of the Board of Appeal.

12. Except as provided in Regulation 38 hereof, the Inspector shall not issue a permit for any building unless it complies with the requirements of the following clauses:—

The Inspector in his order for removal shall name a time by which such building, structure, or fence shall be removed, and give the reasons for requiring such removal.

(2) The Inspector shall not issue a permit for any work on a building constructed or to be constructed on or moved to a parcel of land smaller than is required by the provisions of these regula-

- (2) The Board of Appeal may permit the erection of an outdoor theatre in any district except residential; provided, however, that the said Board may impose such requirements as it thinks fit as a condition of such permission.
- (3) No soil or gravel shall be removed from, or garbage or industrial waste deposited on, any lands in the area without the consent of the Board of Appeal, which may state the terms and conditions on which the consent is granted.
30. (1) Any use of land or buildings contrary to the provisions of Regulations 22 to 29, inclusive, but which existed prior to July 24th, 1948, may be continued, unless in the opinion of the Medical Health Officer and the Inspector such continuance is prejudicial to public health or interest.
- (2) No non-conforming use which has been discontinued for thirty days shall be renewed.
- (3) The lawful use of a building existing on July 24th, 1948, although such use does not conform to the provisions of Regulations 22 to 29, inclusive, may be extended throughout the building, but no structural alterations shall be made, nor shall the non-conforming use be carried beyond the limits of the existing building.
- Removal of Buildings*
31. If the Inspector is notified by the Medical Health Officer having jurisdiction in the area that any building is dangerous to health, the Inspector shall so notify the owner of the land, and may either:—
- (a) Require the owner to put the building in a safe condition within the period of time limited in the order; or
- (b) Require the owner or occupant of the building to vacate it within thirty days from the date of the order, and he may also order the owner to demolish the building within a time limited in the order.

*Appeal*

32. (1) Except in the case of subdivision requirements in respect of which provision for appeal is made in the "Land Registry Act," any person who considers that any decision of the Inspector made pursuant to these regulations will cause him undue hardship shall have a right of appeal by way of a hearing before the Board of Appeal.

(2) Any person exercising the right of appeal shall file with the secretary of the Board of Appeal, within ten days of the giving of any decision under the foregoing regulations, a written notice of appeal therefrom, which shall state clearly the grounds upon which the appeal is made. The appellant shall therein give an address to which all notices may be mailed.

(3) The secretary shall notify the chairman of the Board of Appeal of the notice of appeal, and the chairman shall set a date for the hearing of the appeal, which shall be within ten days of the filing of the notice thereof. Four days' notice of the hearing shall be mailed by the secretary, by registered mail, to the appellant at the address given in the notice of appeal. Other persons may be notified of the hearing as directed by the chairman. Where the appeal is for permission to establish a tourist camp as provided in Regulation 29 hereof, the chairman shall designate the owners of land adjacent to the land referred to in the appeal whom he deems might be affected by the establishment of a tourist camp, and the secretary shall notify such persons of the hearing.

33. (1) The Board of Appeal shall consist of five members, who shall hold office for two years only, unless reappointed. Each member shall be a resident registered land-owner in the area, and shall be appointed a member of the Board by the Minister of Municipal Affairs upon the recommendation of the resident land-owners in the area. The Board shall be presided over by a chairman to be chosen annually by the members thereof.

34. The Board of Appeal may hear witnesses and take any other steps it may consider necessary to ensure a proper consideration.

35. The chairman of the Board of Appeal shall have authority to administer oaths to the witnesses on the appeal.

36. In disposing of appeals, the Board of Appeal may make such relaxations of these regulations, or of any order issued pursuant to these regulations, as the Board of Appeal considers necessary to ensure substantial justice, except that a change of classification of any district or part thereof or a change in the use permitted in a district may be made only by the Minister of Municipal Affairs on the recommendation of the Board of Appeal.

37. The decision in writing of a majority of the members of the Board of Appeal attending a regularly called meeting shall be the decision of the Board, and the Board shall not be required to re-adjudicate the same appeal on the same set of facts.

38. Where the decision of the Board of Appeal relaxes any of the regulations herein, it shall be competent for the Inspector to issue a permit or an order conforming to said decision.

39. The Inspector shall act as secretary to the Board of Appeal, and shall keep a record of proceedings of all meetings of said Board. He shall forward a copy of the decision of the Board in respect to any appeal to the appellant concerned.

*Penalty*

2. *Location.*—Any septic or other sewage-disposal tank shall be located outside and be separated from any wall of a dwelling-house. Any disposal-field or area shall be located as far as practicable from any dwelling, and in no case shall disposal-tiles be nearer at any point than ten feet to any dwelling. No sewage-disposal system shall be so located that it is liable to contaminate any existing domestic water-supply, nor shall it be located under any roadway or traffic-way.

3. *Materials.*—The walls and floors of any septic tank or other sewage-disposal tank shall be of substantial water-tight construction.

4. *Capacity.*—No septic tank or other sewage-disposal tank shall have a capacity, below the invert of the outlet-pipe, of less than four hundred gallons, and shall be constructed according to plans and specifications to be seen in or obtained from the office of the Inspector, or shall be constructed according to other specifications submitted to and approved by the Inspector.

Adequate provision shall be made for any condition that may result in a flow of sewage greater than four hundred gallons per day in any dwelling or fifteen gallons per person per day in any school or similar establishment. When computations or assumptions are made as to the expected flow of sewage, the septic tank shall be sufficiently large to allow a detention period of twenty-four hours, and shall contain in addition a reasonable space for sludge storage.

The length of open-joint tiling shall be not less than sixty lineal feet per dwelling in porous soils, and shall be increased in proportion to the number of bedrooms in excess of two and not more than five at the minimum rate of eighteen lineal feet per bedroom.

For schools and similar establishments whose daily requirements are of limited duration, the length of open-joint tiling shall be not less than two hundred and sixty lineal feet.

The volume of the disposal-tile and feeder-pipes shall in no case be less than one hundred and twenty per cent of the discharge volume of the dosing-chamber.

10. *Tile Disposal-field in Impervious Soil.*—No sub-surface sewage irrigation-field shall be constructed in clay or other heavy or impervious soil unless porous filtration media and adequate drainage are provided by removing such impervious soil and replacing it with porous filtering material, such as coarse sand, gravel, cinders, or broken stone, to a depth

below the bottom of the disposal-tile of not less than eighteen inches and preferably not less than twenty-four inches.

11. *Size of Open-joint Tile and Method of Laying.*—Ordinary field drainage-tile of a size not less than four inches shall be used. They shall be laid on a firm base of broken stone, gravel, or on tile supports, and shall have a depth of cover not less than twelve inches nor greater than twenty-four inches. Tiling shall not be laid under any roadway or traffic-way.

12. *Grade of Tiling.*—The open-joint tiling shall be laid at a small uniform down grade not exceeding two inches per one hundred feet.

13. *Lateral Branches of Tiling.*—Lateral branches of open-joint tiling shall be not less than three feet apart, and shall be connected to the liquid-effluent pipe or to a header by sewer-pipe branch fittings. Header-pipes shall be of a quality equal to that required for house sewer-pipes.

### "TOWN PLANNING ACT"

PURSUANT to the provisions of section 61 of the "Town Planning Act," being chapter 339 of the "Revised Statutes of British Columbia, 1948," as amended, His Honour the Lieutenant-Governor has been pleased to make the following regulations:—

#### NORTH SAANICH REGULATED AREA REGULATIONS

1. The regulations approved under date of August 6th, 1948, and amendments thereto, and applying to the North Saanich Regulated Area defined as follows, are repealed: Section 92, Victoria Land District and North Saanich Land District, save and excepting all that area contained within the boundaries of any Indian reserve and any property of His Majesty the King in the right of the Dominion of Canada. The following regulations are substituted therefor:—

2. The area defined in Regulation 1 is hereinafter called "the area" and shall be known as the "North Saanich Regulated Area."

3. The Lieutenant-Governor in Council may appoint an Inspector for the area pursuant to the provisions of the "Civil Service Act."

4. The provisions of these regulations shall be enforced by the Inspector.

5. Nothing in these regulations shall require the removal, alteration, or abandonment of, nor prevent continuance of the use or occupancy of, a building existing on August 6th, 1948, unless in the opinion of the Inspector the building or its use constitutes a hazard to the safety and welfare of the public, or to the owners of adjacent property, or, in the opinion of the Medical Health Officer, the building or its use constitutes a menace to public health.

#### Subdivisions

6. The approving officer, as defined in the "Land Registry Act," shall not approve of a plan of subdivision that does not conform to the requirements of Regulations 7 and 8 hereof without the written consent of the Inspector, except where provision for the relaxation of said regulations is made herein.

7. No land shall be subdivided into lots or parcels for building purposes unless:—

(a) A method of sewage-disposal satisfactory to the Medical Health Officer is possible for each lot:

(b) Each lot in an "A" Residence district is at least seven thousand five hundred square feet in area and, in addition, is at least sixty feet in width and at least one hundred feet in depth; or in a "B" Residence district is a multiple of 7,500 square feet, together with sufficient area as required by the approving officer for future road allowances, and not less than a total area of twenty-three thousand square feet; or in a commercial or industrial district is at least thirty feet in width and at least one hundred feet in depth. Where the area which it is pro-

posed to subdivide is of such a shape, or the design of an adjoining subdivision is such, that in his opinion a variation from such measurements is justified, the approving officer may approve a plan showing such variation:

(c) Each lot or parcel resulting from the subdivision abuts on a public highway along one full side of said lot:

(d) The approving officer is satisfied that the subdivision design is suited to the configuration of the land in and about the area which it is proposed to subdivide and to the road plan of adjoining subdivisions:

(e) All road allowances in the subdivision that, in the opinion of the approving officer, form a part or extension of the major road system are planned to permit a finished grade not exceeding seven per cent, and all other road allowances in the subdivision are planned to permit a finished grade not exceeding twelve per cent:

(f) Any road allowance in the subdivision that in the opinion of the approving officer forms or is likely to form a part or extension of:—

(i) A major traffic road, is at least eighty feet wide:

(ii) A secondary traffic road, is at least sixty-six feet wide; and all other road allowances in the subdivision are at least fifty feet wide. Such minimum widths shall be increased where so required by the approving officer.

Where a proposed subdivision abuts on an existing road, half of the difference between the existing width and the required width, for the class of road as above detailed, shall be provided by land taken from the subdivision; provided that where highway plans or other conditions require a greater width, as indicated by the approving officer, provision for such width shall be made in a similar manner:

(g) All road allowances are graded and gravelled and all appurtenant works done as required by the approving officer:

(h) All structures of any kind, including fences, are removed from the road allowances:

(i) The land is not swamp land and is not subject to intermittent or periodic flooding other than irrigation flooding.

8. The subdivision of land in Rural class districts into parcels of less than two acres shall not be approved except on the recommendation in writing of the Board of Appeal.

#### Building Regulations

9. No person shall commence the erection of, or an alteration or addition to, or a repair affecting the structural stability of a building, structure, or fence over six feet in height, or the installation of plumbing in any building or structure, in the area without first obtaining a permit in respect thereof from the Inspector.

10. No person shall move a building or structure other than small accessory buildings or structures within a Rural class district, within or to any part of the area, without first obtaining a permit in respect thereof from the Inspector.

11. (1) Before considering an application for a permit, the Inspector shall require the applicant to furnish evidence of compliance with Regulation 7 (g) hereof, in addition to such plans, specifications, and other information as he thinks proper.

(2) The application for a permit, together with such plans and other information as the Inspector requires, shall be examined by him, and if it appears to him that such plans and other information are in conformity with the requirements of these regulations and all other laws applicable thereto, the Inspector shall issue the building permit upon receipt of the required permit fee, and not otherwise, except as provided in Regulation 38 hereof.

12. Except as provided in Regulation 38 hereof, the Inspector shall not issue a permit for any building unless it complies with the requirements of the following clauses:—

- (a) Any building intended for human or animal habitation, or as a place where people may congregate, such as a community hall, dance-hall or similar use, or as a food-catering establishment, shall have provision made for sewage-disposal satisfactory to the Medical Health Officer, and the water-supply shall be satisfactory to the Medical Health Officer:
  - (b) There shall be at least seven thousand five hundred square feet of area and at least sixty feet of frontage in a registered parcel of land for any and every single-family residence erected thereon, except where subdivision into parcels of less area or width has been made and registered prior to August 6th, 1948; and two dwellings or more may be erected only on a parcel of land exceeding fifteen thousand square feet in area, in which case they shall be located as if each were on a separate lot created by resubdivision of said parcel in conformity with the requirements of these regulations:

  - (e) The window area in any room intended or used for human habitation shall be at least one-tenth the floor area:
  - (f) Where adequate sewage-disposal and sufficient water facilities are available, every building used or intended to be used for human habitation shall be provided with at least one sink and one toilet and one bathtub or shower properly connected to the approved sewage-disposal system:
  - (g) Where land is occupied or is to be occupied by more than three dwellings per acre or by more than three families per acre, if a sufficient water-supply is available, flush-toilets draining into septic tanks or otherwise satisfactory to the Medical Health Officer shall be provided:
  - (h) Where privies are permitted, they shall conform to the requirements of section 16 (f) of the Regulations for the Sanitary Control of Industrial Camps:
  - (i) No open-joint tiling in a sewage-disposal field and no building, other than accessory buildings which the Medical Health Officer considers not likely to cause pollution of water, shall be erected within a less distance than fifty feet from the normal high-water line of any lake, the waters of which are used for swimming or drinking by human beings, nor from any stream; provided that the prohibition in case of any said stream may be waived at the discretion of the Medical Health Officer:
  - (j) All buildings other than small accessory buildings, such as private garages or hen-houses, shall be supported on walls of masonry or reinforced concrete, conforming to the provisions of clauses (b) and (c) of Article 3.7.7.2. of the National Building Code.
13. (1) Tourist camps conforming with the regulations made under the "Tourist Accommodation Regulation Act" shall be exempted from the requirements of Regulation 12 hereof.

(6) No building shall be used for a purpose other than that for which a permit was issued, except with the written permission of the Inspector.

14. (1) The Inspector may withhold a permit for or order the removal of any building, structure, or fence, the existence of which is in his opinion contrary to public interest. The Inspector in his order for removal shall name a time by which such building, structure, or fence shall be removed, and give the reasons for requiring such removal.

(2) The Inspector shall not issue a permit for any work on a building constructed or to be constructed on or moved to a parcel of land smaller than is required by the provisions of these regulations, unless said parcel was on record before August 6th, 1948, or is a part of a subdivision plan regularly approved by the approving officer.

15. If a permittee has not commenced to exercise his rights under the permit within six months from date of issue, the permit shall expire.

16. Where a person obtains a permit, he shall carry out the construction in accordance with the terms on which the permit is based, and not otherwise.

17. The Inspector shall have power to enter upon and inspect every building in course of construction in the area.

18. If any person is erecting a building, structure, or fence over six feet in height without a permit, or that is not in accordance with the plans and specifications on which the permit is based, the Inspector may:—

- (a) Order that person to cease building; or
- (b) Order that person to conform to the plans and specifications; or
- (c) Order that person to remove the building, structure, or fence within a time-limit to be stated in the order.

19. Where the Inspector finds a building, structure, or fence to be:—

- (a) In a dangerous condition, he may order the owner to make such repairs or reconstruction as he considers necessary to put said building, structure, or fence into a safe condition. If, in the opinion of the Building Inspector, the existing building cannot be satisfactorily repaired, or if the owner refuses or neglects to carry out the repairs or reconstruction ordered by the Inspector, the Inspector may order the building demolished by a date specified in the order:
- (b) Not in conformity with the requirements specified in Regulation 12 hereof for new buildings, he may, subject to the approval of the Board of Appeal, order the owner to make such alterations or additions or do anything that may be necessary to bring said building into conformity with these regulations by a date to be specified in the order.

20. Every person to whom an order is directed pursuant to these regulations shall obey the order.

30. (1) Any use of land or buildings contrary to the provisions of Regulations 22 to 29, inclusive, but which existed prior to August 6th, 1948, may be continued, unless in the opinion of the Medical Health Officer and the Inspector such continuance is prejudicial to public health or interest.

(2) No non-conforming use which has been discontinued for ninety days shall be renewed.

(3) The lawful use of a building existing on August 6th, 1948, although such use does not conform to the provisions of Regulations 22 to 29, inclusive, may be extended throughout the building, but no structural alterations shall be made, nor shall the non-conforming use be carried beyond the limits of the existing building.

#### *Removal of Buildings*

31. If the Inspector is notified by the Medical Health Officer having jurisdiction in the area that any building is dangerous to health, the Inspector shall so notify the owner of the land, and may either:—

- (a) Require the owner to put the building in a safe condition within the period of time limited in the order; or
- (b) Require the owner or occupant of the building to vacate it within thirty days from the date of the order, and he may also order the owner to demolish the building within a time limited in the order.

#### *Appeal*

32. (1) Except in the case of subdivision requirements in respect of which provision for appeal is made in the "Land Registry Act," any person who considers that any decision of the Inspector made pursuant to these regulations will cause him undue hardship shall have a right of appeal by way of a hearing before the Board of Appeal.

(2) Any person exercising the right of appeal shall file with the secretary of the Board of Appeal, within ten days of the giving of any decision under the foregoing regulations, a written notice of appeal therefrom, which shall state clearly the grounds upon which the appeal is made. The appellant shall therein give an address to which all notices may be mailed.

(3) The secretary shall notify the chairman of the Board of Appeal of the notice of appeal, and the chairman shall set a date for the hearing of the appeal, which shall be within ten days of the filing of the notice thereof. Four days' notice of the hearing shall be mailed by the secretary, by registered mail, to the appellant at the address given in the notice of appeal. Other persons may be notified of the hearing as directed by the chairman. Where the appeal is for permission to establish a tourist camp as provided in Regulation 29 hereof, the chairman shall designate the owners of land adjacent to the land referred to in the appeal whom he deems might be affected by the establishment of a tourist camp and the secretary shall notify such persons of the hearing.

33. (1) The Board of Appeal shall consist of five members, who shall hold office for two years only, unless reappointed. Each member shall be a resident registered land-owner in the area, and shall be appointed a member of the Board by the Minister of Municipal Affairs upon the recommendation of the resident land-owners in the area. The Board shall be presided over by a chairman to be chosen annually by the members thereof.

(2) If a member of the Board dies, resigns, or is removed from office, the Minister of Municipal Affairs shall appoint a member to serve for the unexpired portion of the term of the former member, and until such appointment the remaining members shall constitute the Board.

(3) Three members shall constitute a quorum.

34. The Board of Appeal may hear witnesses and take any other steps it may consider necessary to ensure a proper consideration.

35. The chairman of the Board of Appeal shall have authority to administer oaths to the witnesses on the appeal.

36. In disposing of appeals, the Board of Appeal may make such relaxations of these regulations, or of any order issued pursuant to these regulations, as the Board of Appeal considers necessary to ensure substantial justice, except that a change of classification of any district or part thereof may be made only by the Minister of Municipal Affairs on the recommendation of the Board of Appeal.

37. The decision in writing of a majority of the members of the Board of Appeal attending a regularly called meeting shall be the decision of the Board, and the Board shall not be required to readjudicate the same appeal on the same set of facts.

38. Where the decision of the Board of Appeal relaxes any of the regulations herein, it shall be competent for the Inspector to issue a permit or an order conforming to said decision.

39. The Inspector shall act as secretary to the Board of Appeal and shall keep a record of proceedings of all meetings of said Board. He shall forward a copy of the decision of the Board in respect to any appeal to the appellant concerned.

### Penalty

40. Any person failing to carry out any provisions of an order issued pursuant to these regulations shall be guilty of an offence, and shall be liable, on summary conviction, to a penalty not exceeding one hundred dollars for each ten days or part thereof such violation continues.

### SCHEDULE A

2. *Location.*—Any septic or other sewage-disposal tank shall be located outside and be separated from any wall of a dwelling house. Any disposal field or area shall be located as far as practicable from any dwelling, and in no case shall disposal-tiles be nearer at any point than ten feet to any dwelling. No sewage-disposal system shall be so located that it is liable to contaminate any existing domestic water-supply, nor shall it be located under any roadway or traffic-way.

3. *Materials.*—The walls and floors of any septic tank or other sewage-disposal tank shall be of substantial water-tight construction.

4. *Capacity.*—No septic tank or other sewage-disposal tank shall have a capacity, below the invert of the outlet-pipe, of less than four hundred gallons, and shall be constructed according to plans and specifications to be seen in or obtained from the office of the Inspector, or shall be constructed according to other specifications submitted to and approved by the Inspector.

Adequate provision shall be made for any condition that may result in a flow of sewage greater than four hundred gallons per day in any dwelling or fifteen gallons per person per day in any school or similar establishment. When computations or assumptions are made as to the expected flow of sewage, the septic tank shall be sufficiently large to allow a detention period of twenty-four hours, and shall contain in addition a reasonable space for sludge storage.

5. *Design.*—The digestion or treatment and dosing chambers of any septic tank or other sewage-disposal tank shall be securely covered with concrete, metal, or wood, and shall be provided with adequate means of access.

The depth of the digestion-chamber shall not be less than forty-two inches below the level of the liquid outflow. A space of at least twelve inches shall be provided above the level of liquid outflow, for scum formation and gas escape.

The inlet and outlet pipes shall be of a size not less than that of the sewer served, and shall be so provided with baffle-plates or with inverted sanitary tee-fittings as to prevent any excess turbulence or disturbance of the scum. The outlet baffle or tee-fitting shall extend not less than six inches above and fifteen inches below the water-line. The inlet tee-fitting or baffle shall extend several inches above and ten to fifteen inches below the water-level in the tank. The level of the outlet shall be two to four inches below that of the inlet.

6. *Dosing-chambers.*—Any septic tank or other sewage-disposal tank of more than 400-gallon capacity and discharging into a sub-surface tile disposal-field or sand filter shall be provided with a dosing-chamber of liquid capacity of at least one-tenth that of the treatment-tank.

7. *Dosing-siphons.*—Dosing-chambers shall be provided with siphons or other discharging devices, and shall be automatic unless other means are provided for their proper operation. Such siphons or other discharging devices shall be made of corrosion-resistant material.

9. *Capacity of Tile Disposal-field.*—In assessing the capacity of any private sub-surface irrigation-field for sewage, consideration shall be given to the character of the soil and the capacity of the dosing-chamber.

The length of open-joint tiling shall be not less than sixty lineal feet per dwelling in porous soils, and shall be increased in proportion to the number of bedrooms in excess of two and not more than five at the minimum rate of eighteen lineal feet per bedroom.

For schools and similar establishments whose daily requirements are of limited duration, the length of open-joint tiling shall be not less than two hundred and sixty lineal feet.

The volume of the disposal-tile and feeder-pipes shall in no case be less than one hundred and twenty per cent of the discharge volume of the dosing-chamber.

10. *Tile Disposal-field in Impervious Soil.*—No sub-surface sewage irrigation field shall be constructed in clay or other heavy or impervious soil unless porous filtration media and adequate drainage are provided by removing such impervious soil and replacing it with porous filtering material, such as coarse sand, gravel, cinders, or broken stone, to a

depth below the bottom of the disposal-tile of not less than eighteen inches and preferably not less than twenty-four inches.

11. *Size of Open-joint Tile and Method of Laying.*—Ordinary field drainage-tile of a size not less than four inches shall be used. They shall be laid on a firm base of broken stone, gravel, or on tile supports, and shall have a depth of cover not less than twelve inches nor greater than twenty-four inches. Open joints of one-eighth to three-eighths of an inch shall be left between tiles, and the upper half of such joints shall be covered by tarred paper, broken tile, or other approved protection. The tile-trench shall be back-filled with coarse sand, gravel, cinders, or broken stone of particle size not greater than one-half inch in any dimension, to a depth of six inches over the top and around the sides of the tile wherever the soil is less porous than coarse sand or gravel. Tiling shall not be laid under any roadway or traffic-way.

12. *Grade of Tiling.*—The open-joint tiling shall be laid at a small uniform down grade not exceeding two inches per one hundred feet.

13. *Lateral Branches of Tiling.*—Lateral branches of open-joint tiling shall be not less than three feet apart, and shall be connected to the liquid effluent pipe or to a header by sewer-pipe branch fittings. Header-pipes shall be of a quality equal to that required for house sewer-pipes.

#### Subdivisions

6. The approving officer, as defined in the "Land Registry Act," shall not approve of a plan of subdivision that does not conform to the requirements of Regulations 7 and 8 hereof without the written consent of the Inspector, except where provision for the relaxation of said regulations is made herein.

7. No land shall be subdivided into lots or parcels for building purposes unless:—

- (a) A method of sewage-disposal satisfactory to the Medical Health Officer is possible for each lot:
- (b) Each lot in an Urban class district is at least seven thousand five hundred square feet in area and, in addition, is at least sixty feet in width and at least one hundred feet in depth, or in a Commercial or Industrial class district is at least thirty-three feet in width and at least one hundred feet in depth. Where the area which it is proposed to subdivide is of such a shape, or the design of an adjoining subdivision is such, that in his opinion a variation from such measurements is justified, the approving officer may approve a plan showing such variation:
- (c) Each lot or parcel resulting from the subdivision abuts on a public highway along one full side of said lot:
- (d) The approving officer is satisfied that the subdivision design is suited to the configuration of the land in and about the area which it is proposed to subdivide and to the road plan of adjoining subdivisions:
- (e) All road allowances in the subdivision that, in the opinion of the approving officer, form a part or extension of the major road system are planned to permit a finished grade not exceeding seven per cent, and all other road allowances in the subdivision are planned to permit a finished grade not exceeding twelve per cent:

Such minimum widths shall be increased where so required by the approving officer. Where a proposed subdivision abuts on a major traffic road, half of the difference between the existing width and

the required width as detailed by the District Engineer, such required width being not less than eighty feet, shall be provided by land taken from the subdivision:

- (g) All road allowances are graded and gravelled to the satisfaction of the approving officer:
- (h) All structures of any kind, including fences, are removed from the road allowances:
- (i) The land is not swamp land and is not subject to intermittent or periodic flooding other than irrigation flooding.

8. The subdivision of land in Rural class districts into parcels of less than two acres shall not be approved except on the recommendation in writing of the Board of Appeal.

#### Buildings

9. No person shall commence the erection of, or an alteration or addition to, or a repair affecting the structural stability of a building or structure, or the installation of plumbing in any building or structure, in the area without first obtaining a permit in respect thereof from the Inspector.

12. Except as provided in Regulation 37 hereof, the Inspector shall not issue a permit for any building unless it complies with the requirements of the following clauses:—

- (a) Any building intended for human or animal habitation, or as a place where people may congregate, such as a community hall, dance-hall or similar use, or as a food-catering establishment, shall have provision made for sewage-disposal satisfactory to the Medical Health Officer, and the water-supply shall be satisfactory to the Medical Health Officer:
- (b) There shall be at least seven thousand five hundred square feet of area and at least sixty feet of frontage in a registered parcel of land for any and every residence erected thereon, except where subdivision into parcels of less area or width has been made and registered prior to June 28th, 1947, and where two dwellings or more are erected on a parcel of land exceeding fifteen thousand square feet in area, they shall be located as if each were on a separate lot created by resubdivision of said parcel in conformity with the requirements of these regulations:

The Inspector in his order for removal shall name a time by which such structure shall be removed, and give the reasons for requiring such removal.

(2) The Inspector shall not issue a permit for any work on a building constructed or to be constructed on or moved to a parcel of land smaller than is required by the provisions of these regulations, unless said parcel was on record before June 28th, 1947, or is a part of a subdivision plan regularly approved by the approving officer.

15. If a permittee has not commenced to exercise his rights under the permit within six months from date of issue, the permit shall expire.

(2) Side yards shall be unoccupied and unobstructed by buildings.

27. The height limitations contained herein shall not apply to windmills, silos, grain-elevators, and similar structures, nor shall they apply to chimneys, towers, and spires, occupying less than seven per cent of the site area.

28. (1) Notwithstanding the provisions of Regulations 22, 23, 24, and 25 hereof, a tourist camp may be established in any district subject to the approval of the Board of Appeal, but no part shall be used as a permanent residence unless it complies with the height, yard, and area requirements of Regulation 23 hereof.

(2) No non-conforming use which has been discontinued for thirty days shall be renewed.

(3) The lawful use of a building existing on June 28th, 1947, although such use does not conform to the provisions of Regulations 22 to 28, inclusive, may be extended throughout the building, but no structural alterations shall be made, nor shall the non-conforming use be carried beyond the limits of the existing building.

#### *Removal of Buildings*

30. If the Inspector is notified by the Medical Health Officer having jurisdiction in the area that any building is dangerous to health, the Inspector shall so notify the owner of the land, and may either:—

- (a) Require the owner to put the building in a safe condition within the period of time limited in the order; or
- (b) Require the owner or occupant of the building to vacate it within thirty days from the date of the order, and he may also order the owner to demolish the building within a time limited in the order.

#### *Appeal*

31. (1) Except in the case of subdivision requirements in respect of which provision for appeal is made in the "Land Registry Act," any person who considers that any decision of the Inspector made pursuant to these regulations will cause him undue hardship shall have a right of appeal by way of a hearing before the Board of Appeal.

(2) Any person exercising the right of appeal shall file with the secretary of the Board of Appeal, within ten days of the giving of any decision under the foregoing regulations, a written notice of appeal therefrom, which shall state clearly the grounds upon which the appeal is made. #### SCHEDULE A

1. *General.*—Whenever a street or common sewer is not available, any sanitary house sewer shall be connected to a private sewage-disposal system. Such system shall consist of a septic tank with a tile disposal-field or other approved means of disposal.

2. *Location.*—Any septic or other sewage-disposal tank shall be located outside and be separated from any wall of a dwelling-house. Any disposal-field or area shall be located as far as practicable from any dwelling, and in no case shall disposal-tiles be nearer at any point than ten feet to any dwelling. No sewage-disposal system shall be so located that it is liable to contaminate any existing domestic water-supply, nor shall it be located under any roadway or traffic-way.

3. *Materials.*—The walls and floors of any septic tank or other sewage-disposal tank shall be of substantial water-tight construction.

4. *Capacity.*—No septic tank or other sewage-disposal tank shall have a capacity, below the invert of the outlet-pipe, of less than four hundred gallons, and shall be constructed according to plans and specifications to be seen in or obtained from the office of the Inspector, or shall be constructed according to other specifications submitted to and approved by the Inspector.

Adequate provision shall be made for any condition that may result in a flow of sewage greater than four hundred gallons per day in any dwelling or fifteen gallons per person

per day in any school or similar establishment. When computations or assumptions are made as to the expected flow of sewage, the septic tank shall be sufficiently large to allow a detention period of twenty-four hours, and shall contain in addition a reasonable space for sludge storage.

5. *Design.*—The digestion or treatment and dosing-chambers of any septic tank or other sewage-disposal tank shall be securely covered with concrete, metal, or wood, and shall be provided with adequate means of access.

The depth of the digestion-chamber shall not be less than forty-two inches below the level of the liquid outflow. A space of at least twelve inches shall be provided above the level of liquid outflow, for scum formation and gas escape.

The inlet and outlet pipes shall be of a size not less than that of the sewer served, and shall be so provided with baffle-plates or with inverted sanitary tee-fittings as to prevent any excess turbulence or disturbance of the scum. The outlet baffle or tee-fitting shall extend not less than six inches above and fifteen inches below the water-line. The inlet tee-fitting or baffle shall extend several inches above and ten to fifteen inches below the water-level in the tank. The level of the outlet shall be two to four inches below that of the inlet.

6. *Dosing-chambers.*—Any septic tank or other sewage-disposal tank of more than 400-gallon capacity and discharging into a sub-surface tile disposal-field or sand filter shall be provided with a dosing-chamber of liquid capacity of at least one-tenth that of the treatment-tank.

7. *Dosing-siphons.*—Dosing-chambers shall be provided with siphons or other discharging devices, and shall be automatic unless other means are provided for their proper operation. Such siphons or other discharging devices shall be made of corrosion-resistant material.

8. *Storm-water.*—Surface or storm water shall not be drained into any private sanitary sewage-disposal system.

9. *Capacity of Tile Disposal-field.*—In assessing the capacity of any private sub-surface irrigation-field for sewage, consideration shall be given to the character of the soil and the capacity of the dosing-chamber.

The length of open-joint tiling shall be not less than sixty lineal feet per dwelling in porous soils, and shall be increased in proportion to the number of bedrooms in excess of two and not more than five at the minimum rate of eighteen lineal feet per bedroom.

For schools and similar establishments whose daily requirements are of limited duration, the length of open-joint tiling shall be not less than two hundred and sixty lineal feet.

The volume of the disposal-tile and feeder-pipes shall in no case be less than one hundred and twenty per cent of the discharge volume of the dosing-chamber.

10. *Tile Disposal-field in Impervious Soil.*—No sub-surface sewage irrigation-field shall be constructed in clay or other heavy or impervious soil unless porous filtration media and adequate drainage are provided by removing such impervious soil and replacing it with porous filtering material, such as coarse sand, gravel, cinders, or broken stone, to a depth below the bottom of the disposal-tile of not less than eighteen inches and preferably not less than twenty-four inches.

11. *Size of Open-joint Tile and Method of Laying.*—Ordinary field drainage-tile of a size not less than four inches shall be used. They shall be laid on a firm base of broken stone, gravel, or on tile supports, and shall have a depth of cover not less than twelve inches nor greater than twenty-four inches. Open joints of one-eighth to three-eighths of an inch shall be left between tiles, and the upper half of such joints shall be covered by tarred paper, broken tile, or other approved protection. The tile-trench shall be back-filled with coarse sand, gravel, cinders, or broken stone of particle size not greater than one-half inch in any dimension, to a depth of six inches over the top and around the sides of the tile wherever the soil is less porous than coarse sand or gravel. Tiling shall not be laid under any roadway or traffic-way.

12. *Grade of Tiling.*—The open-joint tiling shall be laid at a small uniform down grade not exceeding two inches per one hundred feet.

13. *Lateral Branches of Tiling.*—Lateral branches of open-joint tiling shall be not less than three feet apart, and shall be connected to the liquid-effluent pipe or to a header by sewer-pipe branch fittings. Header-pipes shall be of a quality equal to that required for house sewer-pipes.
